“Flight Training Package - for gliders” 2017 version

The Club offers this package for anyone who wishes to learn to fly gliders. The intention of this course is to take student pilots up to and including their first solo glider flight over a 12-month maximum period.

STUDENT REQUIREMENTS:

There is no age limit, and medical fitness needed is similar to that required to drive a car. Maximum weight is 100 Kg (glider limitations).

COST:

\$2800, non-refundable, payable in advance.

COURSE INCLUDES:

Flight costs, including aircraft hire and launch costs to solo standard, but limited to first solo, or 12 months, or specific maximum flights and times listed below.

The course also includes FREE COFC Club membership, training manual, personal logbook, a period of night classes, Gliding NZ membership for a year and of course a qualified instructor to teach you to fly!

SPECIFIC LIMITS

Participants need to pay normal club rates for flying that exceeds any of the following: 10hrs glider time, 25 winch launches, and 250 minutes aero towing (which is generally enough for approx 20 tows launches behind our Cessna 172).

No actual “guarantee” of solo flight is given, although the limits above are generally sufficient for an enthusiastic student to reach solo standard. Flights will usually be on Club days, which are Sundays, at Alexandra Airport. Gliding can be an “all-day” activity, and you should be prepared to be on the airfield from mid morning to late afternoon. When not in the air yourself you will be expected to help-out your fellow students and club members on the airfield.

ENROLMENT:

Enrolments and payments should be made through COFC Inc., contact any member or the organizer listed below.

QUESTIONS:

Feel free to contact the Chief gliding instructor, John Robinson, 4487863, or email: j.robinson@xtra.co.nz
